

Website Development & Maintenance Proposal

This document outlines the website development project and the optional ongoing maintenance agreement for an auto body repair business. The purpose is to clearly define scope, responsibilities, and expectations for both parties.

Included Features

- Custom public-facing website
- Lead intake system with photo uploads
- Admin dashboard for lead management
- Automated email notifications and replies
- Security, validation, and spam protection

Pricing

One-Time Build (Growth Package): \$3,800

Includes full development, testing, deployment, and launch support.

Maintenance Agreement (Optional)

The maintenance agreement covers ongoing technical support and upkeep after launch. Maintenance ensures the website remains secure, functional, and compatible with modern browsers and devices.

Maintenance Plans

- **Basic – \$100/month:** Hosting oversight, backups, uptime monitoring
- **Standard – \$200/month:** Security updates, small content changes, email support
- **Growth – \$350/month:** Priority support, feature tweaks, monitoring, performance checks

Response Times

Basic: 72 business hours

Standard: 48 business hours

Growth: 24 business hours

What Is Included

- Security patches and dependency updates
- Monitoring for errors or outages
- Minor text or configuration changes

What Is Not Included

- Major feature additions or redesigns
- Third-party service fees
- Content creation or marketing services

Either party may cancel the maintenance agreement with 30 days written notice. Maintenance fees are billed monthly. This agreement limits liability to the fees paid during the active maintenance period.
