

Website Development & Maintenance Proposal

This proposal outlines the development and ongoing maintenance of a custom website and lead management system for an auto body repair business. The goal is to increase inbound leads, streamline communication, and give the business owner full control over customer inquiries.

Included Features

- Professional public-facing website
- Contact & lead intake system with photo uploads
- Automatic email notifications and customer auto-replies
- Secure admin dashboard for managing leads
- Lead archiving, pagination, and filtering
- Security, validation, and spam protection
- Mobile-friendly and performance-optimized build

Pricing

One-Time Build (Growth Package): \$3,800

Includes full development, testing, deployment, and handoff.

Optional Monthly Maintenance

- Basic: \$100/mo (updates, backups, uptime monitoring)
- Standard: \$200/mo (security, small changes, email support)
- Growth: \$350/mo (priority support, feature tweaks, monitoring)

These rates align with industry benchmarks from professional agencies and cost guides.

Sample Client Email

Hi [Client Name],

Attached is a proposal outlining the website and lead management system we discussed. It includes a breakdown of features, pricing, and optional ongoing support.

This system is designed to help you capture more leads, respond faster to customers, and manage inquiries without technical overhead.

I'd be happy to walk through this with you or make adjustments based on your needs.

Best regards,
GP
